Port Vila, **VANUATU**

PROJECT: 16032

Date: 3rd June 2021

Dear Daryll,

Ref: REVIEW OF STRUCTURAL PLANS AND CONFIRMATION OF STRUCTURAL INTEGRITY OF PROPOSED BUILDINGS FOR VANUATU

Thank you for your email dated 3rd May '21 submitting the structural plans for your proposed Domes to be constructed in Vanuatu.

I confirm herewith that I have reviewed all design parameters and plans of the proposed buildings and I am satisfied and can certify that these Buildings have been designed to similar Standards and parameters used in Vanuatu and as such, I confirm herewith that the proposed Buildings are certifiable under the Vanuatu National Building Code.

All Design Loads are in line with AS/NZS 1170 – Structural Design actions for cyclonic and seismic loads.

Finally, I wish to confirm that I have checked and inspected the finished buildings constructed near Erakor Bridge and I would have no hesitation to recommend these Domes.

Should you require further information, please do not hesitate to contact me.

Yours faithfully,

.....
Cyrille Mainguy
